Adding a custom logo to printer receipts

Logos on print receipts

The image must be in .bmp format. The image must be monochrome (black and white image) 512 x 264 pixels

place the logo in C:\onePOS\DATA

Go to Management Console - Setup - Hardware Devices.

Select the Printer, then click Edit.

In the Logo File field enter the full name of the logo file (ie, LOGO.bmp)

Click OK, then DONE

This process needs to be performed on all printers you want the logo print.

After all logo printers all complete

Reboot system

Remove onePOS Logo on Receipt Printer

Go to Management Console - Setup - Hardware Devices.

Select the Printer, then click Edit.

Delete the text Terminal.bmp in the Logo File field.

Click OK, then DONE.

Reboot system
