

Step #3: Configuring Terminal 01

Note: Before beginning Step #3, onePOS should first be installed on terminal 01 and only terminal 01

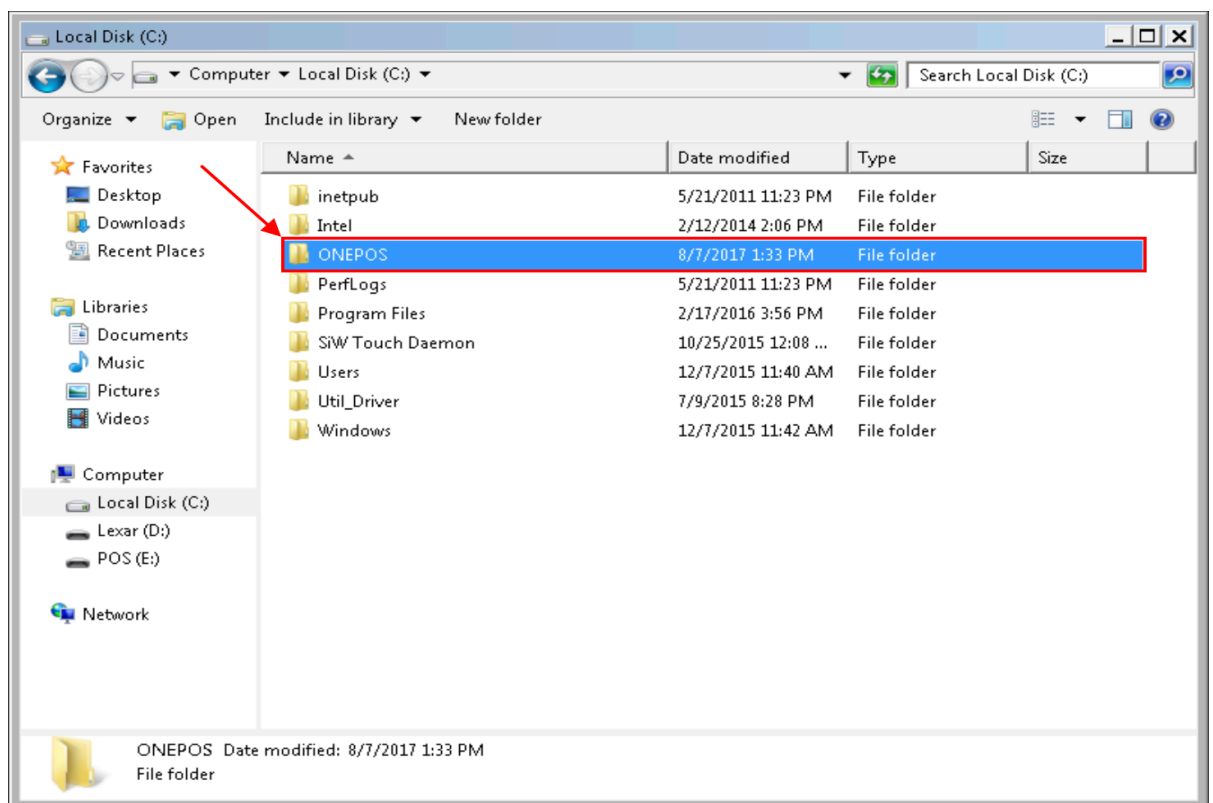

1. Open "Windows Explorer"

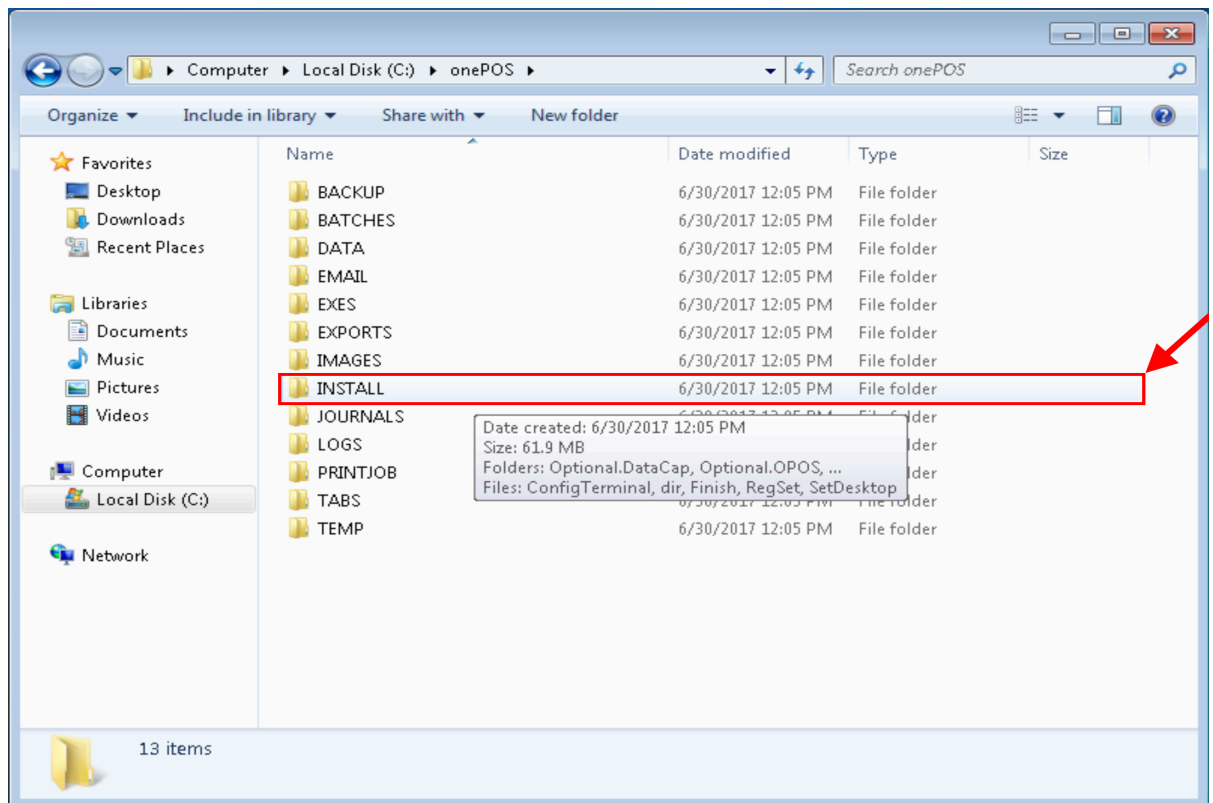

2. Click on "Local Disk (C:)"

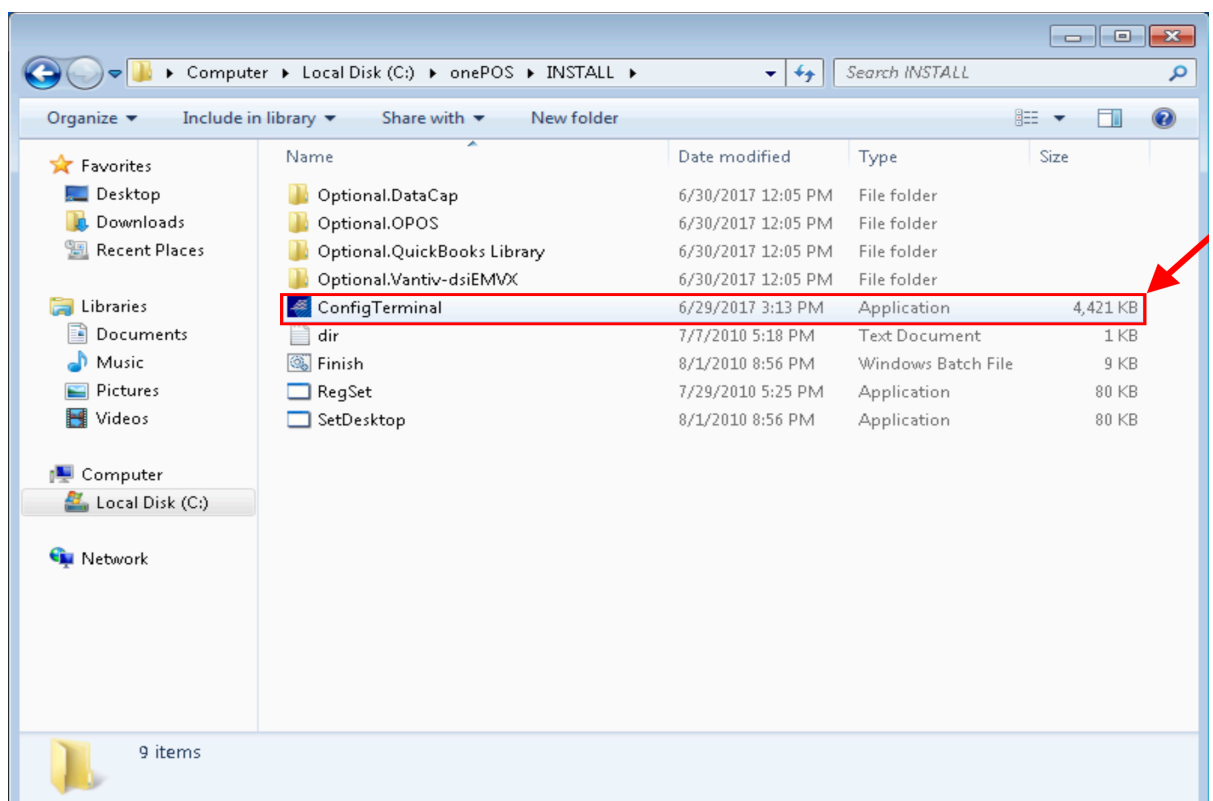

3. Double click to open the "onePOS" folder

4. Double click to open the "INSTALL" folder

5. Double click to run the "ConfigTerminal" program

6. Set the "Terminal ID:" to "Terminal #01"

The screenshot shows the 'onePOS Configure POS Terminal' window. The 'Terminal ID' dropdown is highlighted with a red box and a red arrow pointing to it. The 'Terminal Name' field is also highlighted with a red box. The 'Optional Components' list includes DataCap, OPOS, QuickBooks Library, and Vantiv-dsiEMVX. The 'Log Level' is set to 'Errors Only'. The 'Run Management Console' checkbox is unchecked, while 'Run Terminal', 'Show Mouse', and 'Relaunch Applications' are checked. The 'Administrator Password Old', 'Administrator Password New', and 'onePOS Password' fields are empty. The 'Is POS Server (Terminal 01)', 'Is Backup POS Server (Terminal 02)', and 'Lock Down System' checkboxes are also unchecked. The 'Time Zone' dropdown is empty. The 'Data Server IP' is 192.168.0.101, 'Data Server IP Backup' is 192.168.0.102, and 'Data Server Port' is 10001. The 'Pri DNS' is 192.168.0.1. The 'Gateway' is 192.168.0.1. The 'Machine IP' is 192.168.0.8. The 'Subnet' is 0. The 'Time Zone' is empty. The 'Data Server IP' is 192.168.0.101. The 'Data Server IP Backup' is 192.168.0.102. The 'Data Server Port' is 10001. The 'Log Level' is 'Errors Only'. The 'Run Management Console' checkbox is unchecked. The 'Run Terminal' checkbox is checked. The 'Show Mouse' checkbox is checked. The 'Relaunch Applications' checkbox is checked. The 'Administrator Password Old' field is empty. The 'Administrator Password New' field is empty. The 'onePOS Password' field is empty. The 'Is POS Server (Terminal 01)' checkbox is unchecked. The 'Is Backup POS Server (Terminal 02)' checkbox is unchecked. The 'Lock Down System' checkbox is unchecked. The 'Optional Components' list includes DataCap, OPOS, QuickBooks Library, and Vantiv-dsiEMVX. The 'OK' and 'Cancel' buttons are at the top right. The 'Running this tool will totally remove all data on this terminal, possibly losing valuable information, type ACCEPT to continue:' message is at the bottom.

onePOS Configure POS Terminal

Terminal ID: **Terminal #01**
